TECHNICAL PROJECTS

Trekventure — *Python, Flask, MySQL, Bcrypt, Jinja2, HTML, CSS*   [GitHub](#)

Built a single page text adventure game using session and MySQL database with the ability to login, save a game, and reload. Developed a login system via MySQL database, RegEx, validations and bcryption. Utilized STAPI API to generate space objects.

Travel Bucket List — *Java, Spring Boot, MySQL, Bcrypt, HTML, CSS*   [GitHub](#)

Built a Travel website using Spring Tool Suite and Java with MySQL as a database. Features include adding items to your list, browsing items, login/registration, and sorting your table of items.

EXPERIENCE

Janicki Industries, Sedro-Woolley, WA — *Engineering Coordinator*   Apr 2023 - Present

Building and managing large, technical projects by tracking project requirements, costs, and schedules. Calculating hours and project technicals with complex **Excel sheets and inputting to SAP**. Holding teams accountable to goals and assisting with project related tasks. Communicating project status to decision makers and stakeholders. Reviewing and proofreading documents.

Apidel Technologies, Contract Remote — *Marketing Coordinator*   Mar 2023 - Apr 2023

Contracted to help manage migration of the company website from **Drupal 7** to **Drupal 9**. Built 86 web pages from wireframes and old designs in 4 weeks using layout builder and **HTML**. Collaborated on design updates.

iPROMOTEu, Remote — *Graphic Design and Marketing Coordinator*   Nov 2021 - Oct 2022

Managed all graphic design projects including digital and print formats. Edited web pages and website information using **WordPress** and **HTML**. Managed company social media posts. Copywrote for printed pieces, email, and social media. Customized product catalogs and branding for affiliate companies. Photographed sample products. Edited photos as needed. Producing art for packaging using provided die lines. Answered customer emails. Organized marketing initiatives via spreadsheets and team project boards.

Majestic Glove, Everett, WA — *Graphic Designer and Marketing Coordinator*   Apr 2018 - Nov 2021

Built new web pages using **HTML**, **CSS** and **Magento**. Managed and implemented all email campaigns. Produced printed marketing material including a **200+ page catalog**. Produced **5-15 product proofs** for customers **within 3 hours**. Set up files for screen printing. Managed product photo shoots including lifestyle photos with live models. Built and scheduled social media posts. Answered customer inquiries via email. Filmed and edited product videos. Designed product packaging using provided die lines. Updated and built new product data into **Excel spreadsheets** and **SAP**.
